

Dear Mr Bayram Yalçinkaya, President of Turkish Triathlon Federation

We're a group of athletes and coaches who work together to help athletes enhance their athletic performance. We have established our base in the city of Alicante (Spain), where we spend the majority of the year, in order to better develop the athletes' sporting careers. In addition, we operate training camps in several locations, such as CAR Sierra Nevada in Granada (Spain).

In May and June 2021, the athlete Esra Nur joined the squad and trained with us. Throughout her time with the club, she has always been treated with respect and professionalism by all athletes and coaches. We all put in long hours, respecting one another, to attain our common goal.

This is our declaration that all athletes have been treated with professionalism and respect.
